GREEN LAKE – Evensong Spa named one of the top spas in America

The next time that you want to pamper yourself at a unique and multi-award winning spa, look no further! Evensong Spa, located in Green Lake, WI placed 25th out of the top 50 spas in America on the Spas of America’s annual list. “This is an amazing accomplishment considering we have over 750 spas on our website,” said Craig Oliver, President of Spas of America.

Evensong was also named by spAWARDS as one of the top 100 spas in America for 2011. “We’re proud to recognize the best in the industry with our first annual spAWARDS, enabling spa owners to differentiate themselves while providing consumers additional tools and insight when planning a relaxing spa treatment.” said Roger Sholanki, CEO of Book4Time, sponsor of the spAWARDS.

The spa’s Frank Lloyd Wright-inspired exterior design, the stunning indoor labyrinth, as well as their unique blend of natural and high technology services and products are three impressive features that help put Evensong above the competition. Part of the criteria for both awards include; online creativity and presentation, ease of access to information on treatments and pricing, operation of gift cards, innovative spa treatments, as well as overall guest satisfaction.

Evensong Spa is wrapped in tranquility and set on wooded acres in Green Lake, Wisconsin, across the street from Heidel House Resort & Spa. The services, products and setting are all about re-energizing your mind, body and spirit. Evensong Spa offers a wide variety of treatments ranging from facials and massages to pedicures and body wraps. Check out our website www.evensongspa.com for more detailed information on the treatments offered. Call 920.294.3347 to schedule your spa service today.
